The CDR895D Dual Channel dash cam includes a 1080P front camera and a 720P rear camera. The secondary camera can be setup to record inside the vehicle by mounting it on the front windshield to record in-car activity or it can be placed on the rear window to be record behind you. It also includes a two-inch LCD screen, ultra-wide viewing angles (160° in the front and 130° in the rear) and embedded G-Sensor to automatically save and protect clips if an impact is detected. Drive HD Dash Cams allow drivers to protect their vehicle, relive their drive and share interesting footage by continuously recording video of the road ahead and behind in Full HD video.

FEATURES:

- **Dual Camera System** Simultaneously captures the road ahead and behind in HD video (Front:1080P FHD, Rear: 720P HD).
- **Flexible Configuration**
Allows mounting the rear camera on the front windshield facing in or use the 20 ft. extender cable to mount the rear cam on the rear windshield facing out to record the road behind you.
- **Split Screen Viewing**
Allows viewing both cameras at the same time. The free Drive HD Player allows for simultaneous playback of front & rear video files.
- **Driver Alert System**
Lane Departure Warning and Forward Collision Warning* provide visual and audible warnings when the vehicle drifts over a lane line or rapidly approaches an obstacle.
- **Ultra Wide Viewing Angle**
Ultra wide viewing angle films the entire road and your peripherals (Front: 160°, Rear: 130°).
